

ASSEMBLY MANUAL

Keyboard stand
Keyboard stand Extreme

NOTE: Please assemble on soft surface to avoid scratches or damages to the lacquered wood.

Thank you for making StudioDesk the desk of your choice!

Before starting on assembling your keyboard stand let's get familiar with the parts you have received in your package. Please match the corresponding numbers on this page with the drawings.

Wooden parts

1. Main board
2. Strengthening board
3. Legs - left and right

Hardware

Tools you will need (Not included)

- ④ Metal corner 6 pcs

Dim 28x30x50mm

- ⑤ Wooden Dowels 8 pcs

- ⑥ M6 Screw 24 pcs

Rubber hammer

Cross screw driver

1 Step One

Insert dowels (5) into the holes as shown on the illustration. Use rubber hammer If needed.

2 Step Two

Place Main board and strengthening board carefully to the corresponding holes on right leg. Take a special Attention to avoid scratching on lacquered surface. Push the middle section down until the dowels seat properly in their respective holes. Use a rubber hammer, if needed.

3 Step Three

Fix assembled parts together using metal corners (4) and M6 screws (6) as shown in the illustration. **Note!** Turn the metal corner's shorter edge 28 mm downward.

4 Step Four

Carefully lift the left leg on top of the middle section to match leg holes with the dowels. Ensure that every dowel lines up with its corresponding hole on the leg. Gently push the leg down until the middle section seats together.

5 Step Five

Once dowels are in place and boards sit tight to the leg, use metal corners (4) and M6 screws (6) to fix the middle section to the leg. **Note!** Turn the metal corner's shorter edge 28 mm downward.

6 Step Six

Turn keyboard stand to a standing position. Adjust rollers on the legs evenly (+ - 5 mm) with Cross screw driver in case of uneven floor.
