PAK02

PRO Line pull out option White
PRO Line pull out option Black

NOTE:

Please assemble your product on soft surface to avoid scratches and damages on lacquer.

Thank you for making StudioDesk your desk of choice!

Before beginning assembly of your pull out option keyboard tray, let's get familiar with the parts you have received in your package. Please match the corresponding numbers on this page with the drawings.

Wooden parts

1. Left divider
2. Right divider
3. Shelf

Hardware Tools needed (Not included)

<p>④ M6 Screw 16 pcs</p> 	<p>⑤ L Brackets</p> 
--	---

<p>⑥ Sliding mechanism</p>

Before middle portion of the PRO Line desk is assembled, you should fix pull out option dividers on the corresponding holes on the bottom of the main desk surface.

1 Step One

Fix metal brackets (5) to the dividers (1,2) using M6 screws (4) as shown on the illustration left. Repeat this procedure on both dividers.

2 Step Two

Place dividers on the bottom surface over corresponding holes of the Pro Line main desk surface and fix them using M6 screws.

3

Step Three

Once your Pro line desk will be completely assembled, carefully put shelf on the sliding mechanism rails and slowly push it inwards all the way.

10

Step 4

4

Your sliding mechanism is equipped with safety breaks (10) to prevent movements of tray while playing and pulling keyboard tray all the way out. Once locked in open position, press breaks on both sides simultaneously to unlock and push tray inward.

NOTE!

Should you have need to de-assemble your tray from the desk, press both breaks simultaneously and pull tray out.

*Sliding mechanism might vary from time to time

NOTE: Maximum safe load is 12 kg.
