### Rubber hammer

### Phillips Screwdriver

### Hexagon Wrench Included

1

## Step One

Assemble the motorized legs as per included manual.

Place bottom desk surface to the floor and fix it using M6 screws as shown on the illustration right.

2

## Step Two

Fix the controller (14) to the desk using screws for wood (8)

3

## Step Three

Apply only if you purchased keyboard tray

Fix the keyboard tray side boards to the bottom desk surface using M6 screws as shown on the illustration on the right.

4

## Step Four

Turn desk to the standing position to Continue with assembly.

## 5 Step Five

Insert wooden dowels (10) on the positions as illustrated on the illustration right.

## 6 Step Six

Optional step if you  
Purchase LED lighting.

Led stripe is self adhesive.

Remove dust from the edge of the middle desk surface. Remove small portion of the protection paper and start sticking LED stripe on the edge of the middle surface as shown on the illustration left.

Refer to our video manual for more information.

## 7 Step Seven

Optional step if you  
Purchase LED lighting.

Install middle desk surface on the corresponding wooden dowels.

8

## Step Eight

If you purchase LED lighting go to step Nine and get back to this step after installing LED Stripe

Install armrest to the main desk surface using screws for wood. Once armrest is in the place, install main desk surface on the top of the middle desk surface as shown on the illustration on the right.

9

## Step Nine

Optional step if you purchase LED lighting

Carefully remove the glass from the main desk surface and install shorter LED strip as shown in the illustration. Connecting cable should go out through the hole towards down. Carefully put the glass back in the place.

10

## Step Ten

Optional step if you purchase Rack rails

Install rack rails using to the top shelf using M6 screws as shown on the illustration on the right.

Rack rail has threaded and non threaded holes. Threaded holes should be turned towards front and rack rails fixed through non threaded holes to the top shelf.

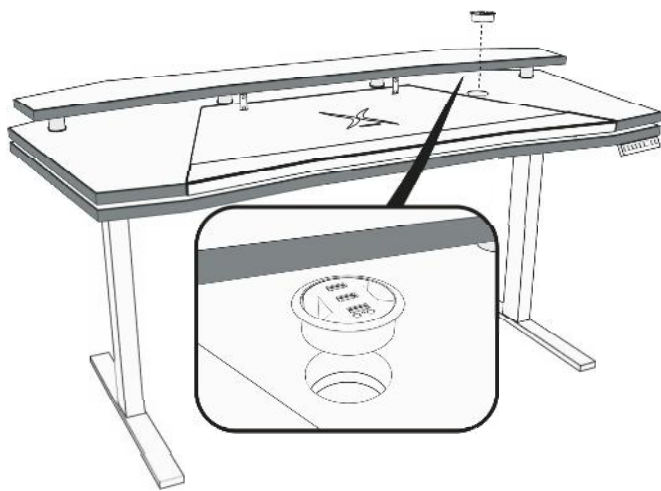

## 11 Step Eleven

Place the pillars on the positions so the long screws (13) can pass trough all three desk surfaces, pillars (7) and end in the top shelf (5).

Fasten long screws using wrench tool.

Note! Washers should be used from the bottom.

## 12 Step Eleven

As the last step, install USB hub cable inlay to your desk and connect it to your computer.
