

# ASSEMBLY MANUAL

## ORBIT Series and Keyboard pull out option

Video Assembly manual is also available.

Search for ORBIT Assembly Video assembly manual on the YouTube.

- ! **NOTE:** In order to avoid injury or damages, please **do not** try to assemble your desk alone. Our furniture is massive and heavy and requires at least two people to carry out assembly. Please assemble on soft surface to avoid scratches to the lacquer.

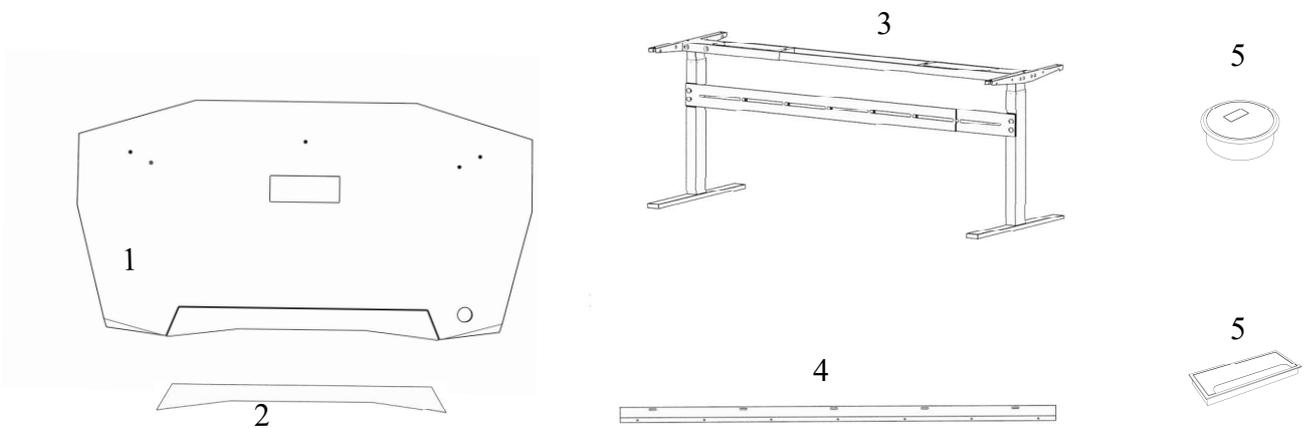

# Thank you for making StudioDesk your desk of choice!

Before beginning assembly of your desk, let's get familiar with the parts you have received in your package. Please match the corresponding numbers on this page with the drawings.

## Parts

## Hardware

## TOOLS needed

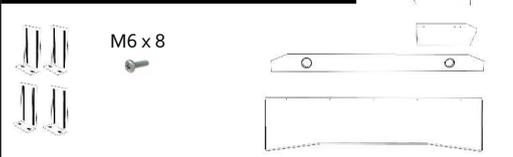

### OPTIONAL SPEAKER SHELVES

### OPTIONAL RACK MODULE

### OPTIONAL Keyboard pull out

Phillips Screwdriver

M6 Screws

7 x 

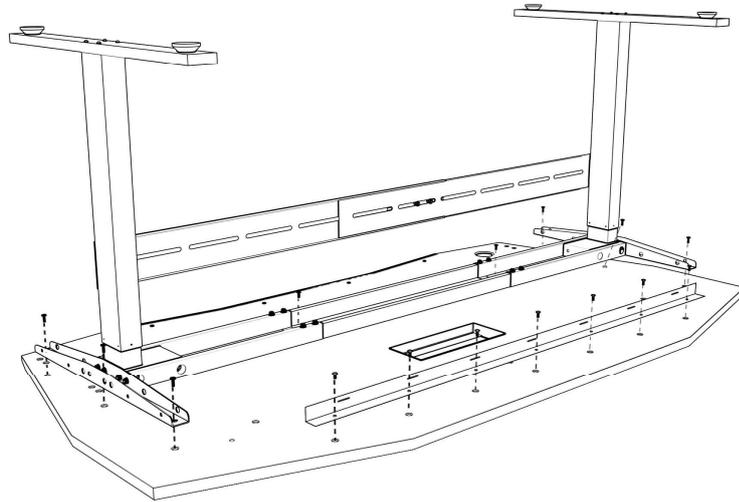

Washer

7 x 

1

**Step One**

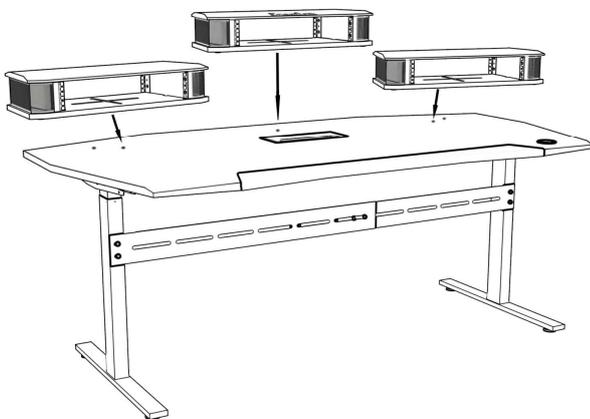

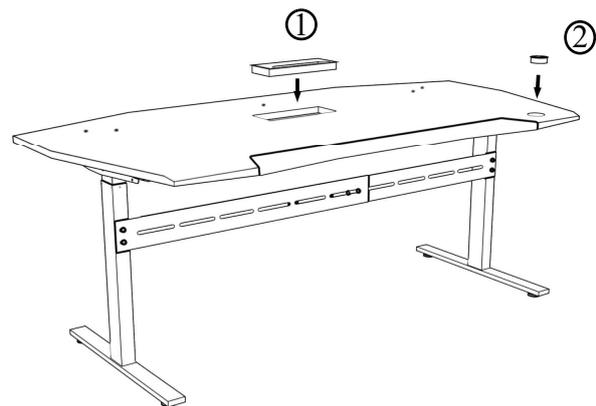

Place desk top to the soft surface and install Electric platform as shown on the picture below. You will find separate manual how to assemble electric platform inside it's box. To watch step by step assembly manual look for link on <https://www.studiodesk.net/video-assembly-manuals/>

2

**Step Two**

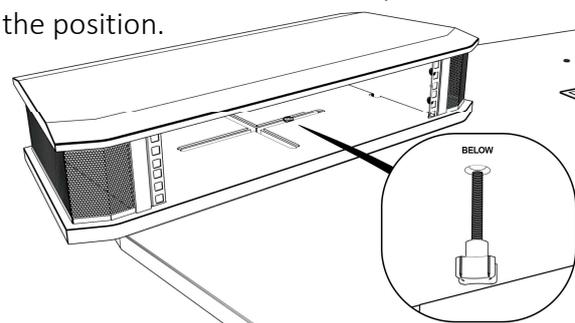

Turn desk to standing position. Install Cable inlay 1 and controller 2

3

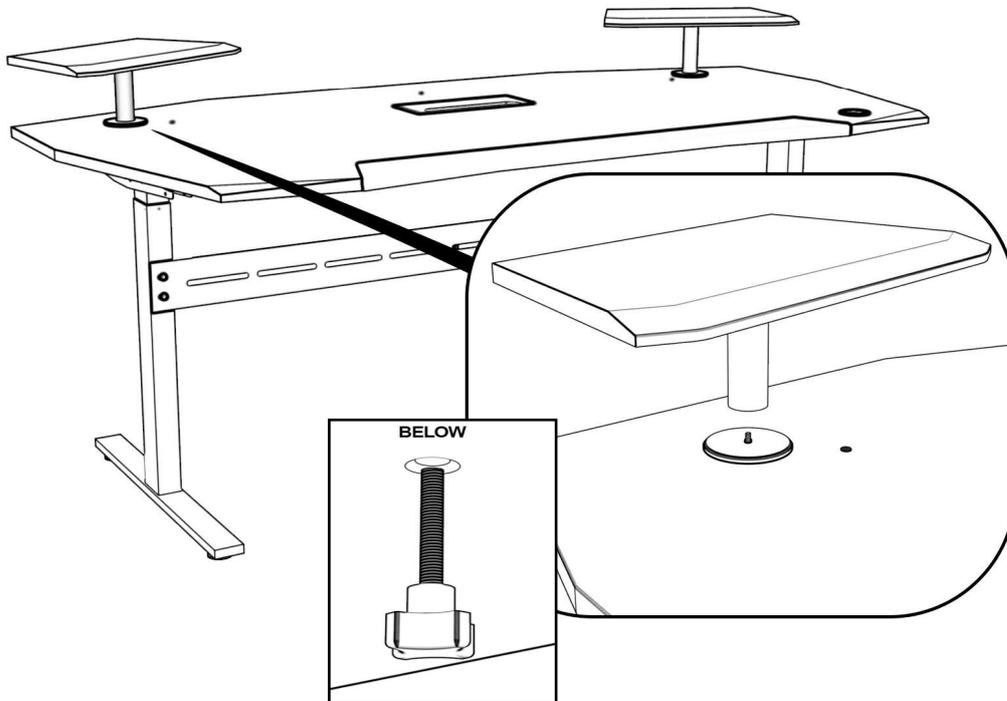

**Step Three**

Modules (if purchased) come assembled and can be placed on the desktop on desired place. Screw with the plastic head is used to fix module to the desk from below. You can move module front and back left and right by unscrewing screw a bit and fasten it back when you set module in the position.

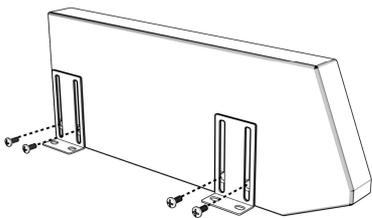

**4****Step Four**

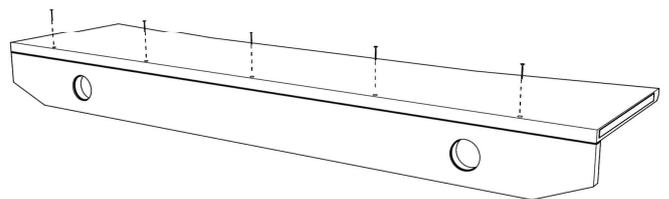

Speaker shelf (if purchased) should be installed as shown below. Use Screw with plastic head. Fix it from the bottom.

**5****Step Five**

If Pull out keyboard option is part of your Set, install pull out on the beginning while desk is still not in upward position. Install brackets to the pull out holders using M6 screws.

**6****Step Six**

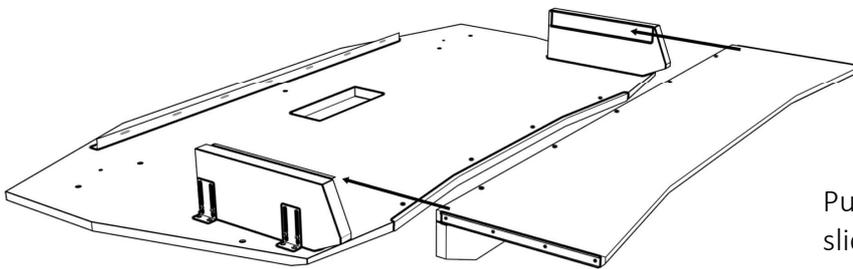

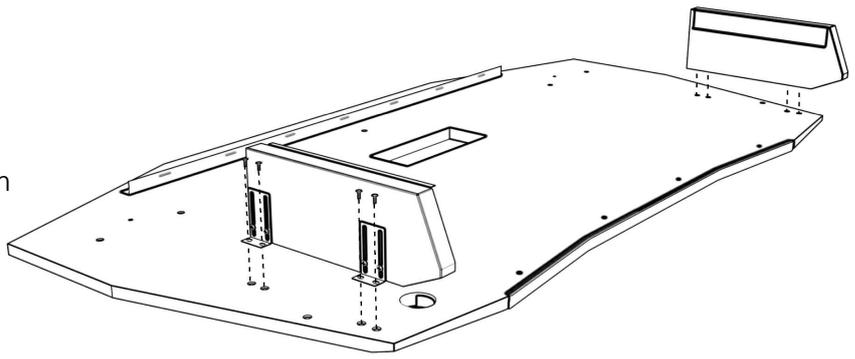

Install pull out vertical to pull out board using confirmat screws.

**If you purchase optional keyboard pull out, here is how to assemble it.**

## 7 Step Seven

Install Pull out holders to the Desk surface using M6 screws as shown on the picture.

## 8 Step Eight

Push rails installed on the board to the slides on the pull out holders to the position evenly on the both sides.

## 8 Step Eight

We add keyboard stopper belt as optional element as a regulator for Keyboard to be pulled out as per need. Install it under the confirmat screw in the middle and and central support bar as shown on the picture.
